

About Us

Throughout the communities we serve, Post Acute Medical offers hope and acts as a catalyst for achieving an optimal quality of life by:

- Focusing on putting the patient first and providing quality care for medically complex (LTACH) and rehabilitation patients
- Providing comprehensive, individualized treatment including physical therapy, occupational therapy, speech therapy, and specialty physicians and nurses
- Returning each patient to their highest possible functional status

Patient Reviews

"They do a great job there. The staff is excellent. Very professional, caring and knowledgeable. I highly recommend them. I had a total knee replacement and I am doing great now."

– Bob P.

Doctor Communication

Q1-Q2 • 2016

*Based on the percentage of patients that rate us as "Excellent" in Doctor Communication.

Patient Success Story – Eddie Castillo

Eddie Castillo came to PAM Specialty Hospital of Luling on a ventilator, with impaired cognition, severely malnourished, debilitated and very weak. When he discharged four weeks later for further rehabilitation, he was breathing on his own, moving around the facility unaided, talking to everyone and participating in up to three hours of therapy per day. He was a much healthier man, who had even gained a bit of weight. The therapy staff said that Mr. Castillo was one of the most motivated patients they have worked with in a long time. "Thank you all," Mr. Castillo said upon his discharge. "I will be positive so I can continue to get better."

"The staff are so knowledgeable and caring. I've had outpatient therapy here a couple times and it was very helpful in my recovery. Awesome PTs!!"

– Mike F.
